

2023 Carbon Reduction Plan **Achieving Net Zero by 2035**

Calculated and produced by [GovData 2023](#)

WPRG

Commitment to Achieving Net Zero

WPRG Limited is committed to achieving Net Zero emissions by 2035.

Baseline Emissions Footprint

Baseline Year: 2022 (01/01/2022 – 31/12/2022)

The Carbon Reduction Plan has been completed in compliance with PPN 06/21. Our Carbon Emissions in 2022 were measured in line with GHG Protocol and include the greenhouse gases stated in the Kyoto Protocol.

| Baseline year emissions: 2022 | | |
|-------------------------------|--|------|
| EMISSIONS | TOTAL (tCO ₂ e) | |
| Scope 1 | 0.00 | |
| Scope 2 | 1.96 | |
| Scope 3 | 4.67 | |
| Included Sources | Business Travel | 0.00 |
| | Employee Commuting | 4.67 |
| | Upstream transportation and distribution | 0.00 |
| | Downstream transportation and distribution | 0.00 |
| | Waste generated in operations | 0.00 |
| Total Emissions | 6.63 | |

Current Emissions Reporting

Reporting Year: 2022 (01/01/2022 – 31/12/2022)

The Carbon Reduction Plan has been completed in compliance with PPN 06/21. Our Carbon Emissions in 2022 were measured in line with GHG Protocol and include the greenhouse gases stated in the Kyoto Protocol.

| Reporting year emissions: 2022 | | |
|--------------------------------|--|------|
| EMISSIONS | TOTAL (tCO ₂ e) | |
| Scope 1 | 0.00 | |
| Scope 2 | 1.96 | |
| Scope 3 | 4.67 | |
| Included Sources | Business Travel | 0.00 |
| | Employee Commuting | 4.67 |
| | Upstream transportation and distribution | 0.00 |
| | Downstream transportation and distribution | 0.00 |
| | Waste generated in operations | 0.00 |
| Total Emissions | 6.63 | |

Reporting Period

WPRG Limited will publish a Carbon Reduction Plan on a yearly basis detailing emissions released from UK Operations from 1st January to 31st December.

Baseline Year & Current Reporting Year

Scope 1 is reported as 0.00 tCO₂e in 2022 due to **WPRG Limited** having no boilers, on-site manufacturing, a fleet or f-gases to report emissions on.

Scope 1

Scope 1 is reported as 0.00 tCO₂e in 2022 due to **WPRG Limited** having no boilers, on-site manufacturing, a fleet or f-gases to report emissions on.

Scope 2

Within Scope 2, we have measured the emissions resulting from employees working in the office. We have calculated the emissions generated from the consumption of purchased gas and electricity used for heating, lighting, and computer usage in our office premises.

Scope 3

Business Travel

The Business Travel Subset in Scope 3 is reported as 0.00 tCO₂e in 2022 due to **WPRG Limited** not travelling by Air, Rail, Bus, travel in rental cars or travel in employee-owned vehicles other than the commute to and from work. All employee travel is therefore reported in the Employee Commuting Subset of Scope 3.

Employee Commuting

The emissions resulting from employee commuting have been calculated at 4.67 tCO₂e, considering factors such as the distance travelled, mode of transportation, and average fuel consumption.

Upstream and Downstream transportation and distribution

The Upstream and Downstream Transportation Subset in Scope 3 is reported as 0.00 tCO₂e in 2022 as **WPRG Limited** does not directly engage in upstream and downstream transportation meaning we are unable to quantify the emissions associated with those activities.

Waste generated in operations

We have requested the CO₂e released from our waste removal provider, however, they don't currently have this data available. We have been assured that this is something they are looking to be able to provide for the next reporting year and will include this in our report for 2023 onwards.

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next five years to 4.98 tCO₂e by 2028. This is a reduction of 25%.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2022 baseline:

- We have introduced an 'Electric Vehicle Scheme' which encourages staff to utilize Electric Vehicles to reduce emissions
- We are transferring to a paperless office to reduce the amount of waste generated.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.
